

Drop-in session

Easton Road bridge works

We are returning to Easton Road this autumn to complete our reconstruction works on the bridge.

Last year we completed the demolition and the majority of the reconstruction. Since then we have been working in the background to plan the final phase of this work:

From 16 November 2017 to early March 2018 we will be:

- Removing concrete barriers
- Excavating and constructing foundations for wall
- Constructing the wall
- Completing waterproofing and resurfacing works
- Constructing boundary fencing

Our team will be happy to talk you through the work:

Wednesday 15 November, 4.30pm - 7.00pm

Easton Community Centre, Kilburn Street, BS5 6AW

For more information visit networkrail.co.uk or call our 24 hour helpline on 03457 11 41 41.
