

Narrowways and Ashley Hill works

NetworkRail

We are carrying out extensive works in the Narrowways and Ashley Hill areas, to enable an increase in train services in response to growing passenger numbers.

What the work involves

Extensive earthworks are underway at Ashley Hill and Narrowways, and we are also reconstructing two footbridges in the area.

This is part of our Filton Bank Four Tracking project, which will enable an increase in train services and support the delivery of a new post-2018 timetable. With two extra lines between Dr Days Junction and Filton Abbey Wood station, it will also improve reliability, reducing disruption caused by maintenance.

Ashley Hill embankment

Earthworks at Ashley Hill continue as follows:

- **Ashley Hill South:** piling October and November, soil nailing December to May 2018.
- **Ashley Hill North:** piling November, soil nailing January to April 2018. Daytime preparatory works prior to this won't be particularly disruptive.

We will be working Monday to Sunday, mainly between 7.30am and 6.00pm. Occasional night shifts are necessary but will be kept to a minimum and noise levels will be closely monitored.

Ashley Hill footbridge

Following the removal of the footbridge last year and extensive drainage improvement works, we installed a new steel footbridge in August. It will open in early 2018. Parking restrictions on Blake Road remain in place.

Narrowways cutting

We are breaking out the abutment of the footbridge, re-grading the slope and carrying out reinforcements until November. Soil nailing is underway and will continue until late October 2017. We are working seven days a week from 7.30am to 6.00pm and will notify neighbours of any works outside those hours.

Narrowways footbridge

Narrowways footbridge closed on 28 August and will be demolished and replaced on 18/19 November. We'll be working 24/7, from 00.01hrs on Saturday 18 November until 05.00hrs on Monday 20 November to remove the old bridge and lift in a new one. It will reopen in February 2018. Train services between Bristol Temple Meads and Bristol Parkway will be replaced with buses throughout this weekend - check before you travel at nationalrail.co.uk.

Muller Road overbridge

Strengthening works continue on Muller Road bridge, preparing for its return to use. Works are scheduled to finish at the end of October.

Access points and compounds

Dovercourt Rd compound will remain very busy until at least December 2018. Improvements at **Muller Road Road Rail Access Point** are due to complete at the end of 2017. Parking restrictions on Petherbridge Road will be in place until then. We are also improving our access at **Station Lane** and alongside the **M32**.

Come and find out more

Come and see us anytime between 4.30pm and 7.00pm:

- Tuesday 10 October, St Werburgh's City Farm, BS2 9YJ
- Monday 6 November, Fairfield High School, BS7 9NL
